This webinar will consider emerging lessons and best practices in cultural heritage preservation as they relate to climate change and its impacts. Using sample projects, we will offer tips on how to design preservation projects that support climate action, such as the preventive conservation and adaptation of historic buildings and the application of cultural landscape preservation principles to protect bio-cultural and intangible heritage.

### **AFCP 2022 Engaging Communities Through Heritage Webinar**

Tuesday, November 16, 2021, 9:00 a.m. EST
